veloped in the Company's Affairs Result in Closing Down the Properties.

A fine crop of litigation has developed during the past few days

The company has only been in active operation about six or seven months and such an out cropping of litigation in that period is somewhat phenomenal. The trouble seems to be entirely within the company and in no way affects the merits of properties exped by it which have been concerning our greatest industry.

At the Brookshire three shifts are taking out fine copper and gold one taking

proved. It is very unfortunate that such serious misunderstandings have occurred as to close operations of the new equipment will be placed upon property and it is hoped in the interests of all concerned as well as for the Honey to Lean good of this section, that an amicable adjustment may be speedily arrived
